

WIP: Belts tensioning

There's cool tool that helps with tensioning: <https://github.com/Frix-x/klippain-shaketune>

> **McSneaky:**

> Got it working following their tutorial? Or had to hack on something?

> **MickNugget:**

> Just a little, basically search all it's files for `printer_data/config` and replace it with `klipper_config`, I had an extra (broken) `plot_graph` macro that I needed to remove, other then that it works fine (edited)

Revision #2
